
The fastest young gun in the West

"MADE IN America" is a new series that starts on RTE this week following the inspiring stories of some of Ireland's emigrants.

Next Thursday's episode follows Kildare born Sean Conlon who left for America in 1990 aged 22.

He made his first million by the time he reached 26 and today heads up the fastest growing estate agency in Chicago with one billion dollar annual sales making him the world's most successful condominium seller.

Working a minimum of 100 hours a week, Conlon also invests in the good life spending three months a year traveling.

He recently purchased an old mill on a stretch of river at home (pictured) where he enjoys flyfishing and socialising with friends.

Made in America, RTE1, Thursday July 6 at 10.15pm
